Farm stays in the heart of undiscovered Provence

EYGALIÈRES - FRANCE

Farm stays in the heart of undiscovered Provence

A secluded retreat between the Alpilles and the olive groves — a place to reconnect with family and friends as the seasons unfold.

Bubbling fountains, a generous vegetable garden, free-roaming animals, and a landscape shaped by human hands: here, every detail blends beauty, comfort and authenticity.

A stay at Casa Nostra is a living experience of warm, timeless Provence.

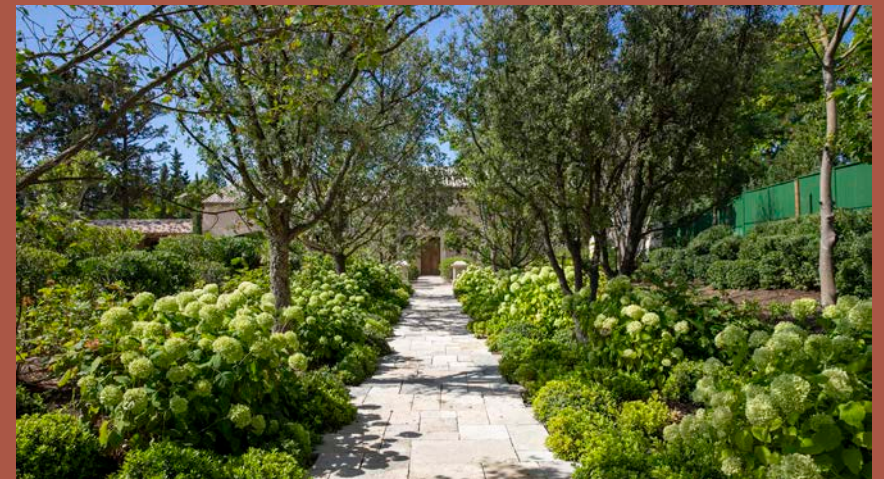

Casa Nostra : a house designed for harmony

This beautifully restored former farmhouse combines the soul of old stone with the understated elegance of modern comfort.

Share a meal beneath the trellis, wander through the garden, play a game of boules in the shade while the children laugh, explore and invent. Inside and out, everything encourages you to slow down and savour the moment.

Deeply rooted in nature and the rhythm of the seasons, Casa Nostra celebrates the art of living together and the beauty of simple pleasures. More than just a place to stay, it's a generous home that invites you to unpack your bags... and let time stretch out.

Open spaces, a home that breathes

At Casa Nostra, every area invites relaxation and connection. The vast cathedral-style lounge, bathed in natural light, sets the scene for intimate conversations, quiet reading or evenings by the fire. Nearby, an open-access wine cellar awaits to be shared.

The kitchen is the vibrant heart of the home, centred around an impressive solid wood table. With its retro-chic feel, it features characterful furnishings and professional-grade equipment - for those who love to cook, or to welcome a chef.

A separate scullery makes it easy to prepare gourmet breakfasts and coffee breaks.

Outdoors, a fully equipped summer kitchen takes over. Here, you can enjoy lunch in the shade or dine under the stars in a living garden where fountains murmur and mealtimes melt into each other.

A lively, poetic garden

At Casa Nostra, the garden is a seamless extension of the house, reflecting the same harmony and seasonal rhythm. Designed by Dominique Lafourcade and brought to life by Benjamin Moricelly, it combines Mediterranean elegance with everyday poetry.

Step outside and you'll hear fountains singing, smell aromatic herbs in the air, and see donkeys, birds and goats animating the scene. The vegetable garden, nestled near the house, overflows with flowers and seasonal produce. Guests can pick their own or ask Pierre, the devoted garden caretaker, for guidance. The henhouse is a favourite for all ages.

Further along, a fire labyrinth offers a sensory stroll through purple foliage, leading to a raised platform with a breathtaking view: the Alpilles, old rose trellises, and a lavender field.

A generous and inspiring space, to be explored at the pace of nature.

Relaxation and authentic pleasures

Casa Nostra invites both rest and gentle activity, always in harmony with its surroundings.

The 17-metre pool, lined with deckchairs and a garden lounge, offers a perfect spot for basking in the light, sipping coffee or enjoying a peaceful siesta.

Close by, the gym overlooks the Alpilles, while the hammam and its adjoining shower room provide a full wellness experience.

The tennis court, framed by centuries-old olive trees, blends beautifully into the landscape.

Beneath the medlar trees, a game of boules can start at any moment, under the curious gaze of donkeys and goats. For children, a thousand corners beckon exploration and play.

A place for everyone

Casa Nostra warmly welcomes large families and groups of all generations. Everyone finds their rhythm, their space, their pace.

All bedrooms are spacious, with king-size beds, en-suite bathrooms and furnishings that combine simplicity and charm. One room is fully accessible for guests with reduced mobility.

Upstairs, a children's dormitory offers five beds, a small bathroom, a cosy sitting area and smart storage. Along the walkway, a playful display features a miniature model of the estate and its animal residents, with illustrated books offering a different perspective on life at Casa Nostra.

Whether in the garden, at the henhouse or near the fountains, children are free to observe, taste and learn, naturally. The setting does the rest: it gently brings everyone together around shared, simple joys.

A setting for precious moments

Casa Nostra is ideal for life's special moments. Intimate weddings, creative retreats, wellness escapes or family celebrations - the estate offers a peaceful, refined and inspiring setting.

Some areas become open-air stages. The fire labyrinth, with its high platform, overlooks the lavender field and rose trellises; a perfect backdrop for ceremonies, photos, or quiet contemplation.

With spacious accommodation, well-equipped kitchens, guest capacity and thoughtful outdoor spaces, Casa Nostra lets you craft the perfect getaway, for a weekend or an extended stay. Everyone can feel at home here.

The greenhouse: nature, gatherings, and warmth

Next to the vegetable garden, the greenhouse extends far beyond its original purpose.

Spacious and filled with natural light, it can be heated or air-conditioned depending on the season. It includes a kitchen with cold room, cloakroom, accessible WC and baby-changing area, plus a mezzanine-level DJ booth.

Its refined design - indoor fountain, fine materials and full transparency - blends beautifully with the surrounding garden. Just outside, a shaded terrace invites you to share an aperitif under the trees, directly connected to the walking paths throughout the estate.

Ideal for a creative workshop, a friendly dinner, an elegant event or a reflective pause, the greenhouse is a flexible, ever-evolving space, shaped by the seasons and your imagination.

PRACTICAL INFORMATION

A unique estate, easy to reach, and designed for comfort.
